

# Pegasus Seiya

The Struts

Hold it in your heart  
Cosmo is a part of you  
Burning hard, gonna flow  
Don't you stop it, let it go

Prophecies were made  
In galaxies so far from here  
But you don't need them now  
Stay strong and believe what you feel  
Yeah

Pegasus, the destiny  
No one can take away from you  
Now your hope is the sky  
And your dreams are the wings  
They're gonna take you high

Saint Seiya  
The stars up there keep callin'  
Forever, just see it through 'til the end, ooh yeah  
They say that  
Our boys, they can be heroes  
Remember you can do this, then fly away

Crying out your name  
Reaching through infinity  
Shine the stars, just for you  
Gotta find them, 'til you do

Ride it 'til the end  
'Cause it's all over if you lose  
When the challenge is made you will know  
This isn't a game

Pegasus, inside of you  
Only as strong as you believe  
So don't ever give in  
Come on, open your wings  
It's gonna set you free

Saint Seiya  
The stars out there keep callin'  
Forever, we stand with him 'til the end, ooh yeah  
They say that  
Our boys are born true fighters  
Remember you can do this, then fly away

Pegasus, the destiny  
No one can take away from you  
Now your hope is the sky  
And your dreams are the wings  
They're gonna take you high

Saint Seiya  
The stars up there keep callin'  
Forever, gonna make your stand 'til the end, ooh yeah  
They say that

Our boys, they can be heroes  
Remember you can do this, then fly away
