

Where Did She Go

The Struts

Where did she go?
Where did my love run?
I want it back the way it was

I saw you in leather
Oh a bit of a Rebel
And the dance of my lips while it's glued to yours
Yeah they were
And do you believe it
And you can't decieve it
But love from swung my face onto this day
And now I'm singing

Where did she go?
Where did my love run?
I want it back the way it was

Give me the time
Give me the clock cause
I want it back the way it was

Cause love can be so blind
And I was just too kind
And she thinks I'm fake and everybody knows
And I was all for it
And then she stung like a hornet
When she seeps me I'm sure it will be the last
Now I'm singing

Where did she go
Where did my love run
I want it back the way it was
Yeah yeah yeah

Give me the time
Give me the clock cause
I want it back the way it was

Where did she go
Where did my love run
I want it back the way it was

Give me the time
Give me the clock cause
I want it back the way it it was

Where did she go
Where did my love run
I want it back the way it was

Give me the time
Give me the clock cause
I want it back the way it was
