

# Wild Child

The Struts

Yeah I'm pleasure and I'm worth the pain  
Just like thunder always follows rain  
Peel you out in fire, smoke and wheels  
I'll be your hero from the movie reels  
With my style that's instant classic  
That looks fast and magic  
Well you wanna a chase and that's alright  
I'm coming fully loaded and you're in my sights tonight

I'm a wild child  
Born on a blood red moon  
Baby don't you cry it's fine if I die too soon  
Not afraid to admit  
I'd only be scared if I never lived  
I'm your wild child  
Born on a blood red moon

Scratch your number right onto my chest  
Hit me up and you can call for sex  
Keep in mind I like to be impressed  
I'll only have you in your Sunday best  
It's been a while since we've been flirting  
But one thing's for certain  
You should take your time to think me through  
Cause every rumour that you've heard is true c'mon

I'm a wild child  
Born on a blood red moon  
Baby don't you cry it's fine if I die too soon  
Not afraid to admit  
I'd only be scared if I never lived  
I'm your wild child  
Born on a blood red moon (moon)

I'm your wild child  
Born on a blood red moon  
Baby don't you cry it's fine if I die too soon  
Not afraid to admit  
I'd only be scared if I never lived  
I'm your wild child  
Born on a blood red moon (moon)
