

Your going away  
And I'm feeling the same  
Thing Day after Day  
I can't let it go

Everyone in this room  
They've got troubles too  
Secret stories and  
Lies that we never knew

Xavia, who will save us?  
Your smile's on fire  
And still my heart  
Won't let you down, the sound

I don't wanna be  
Your favorite enemy  
Not when i can be loving you, alright  
Why can't it be?  
No two people feel  
The same way at the same time

Xavia, who will save us?  
Your smile's on fire  
And still my heart  
Won't let you down, the sound

Everyone in this room  
They've got troubles too  
Secret stories and  
Lies that we never knew

Your going away(i don't wanna be)  
And I'm feeling the same(your favorite enemy)  
Thing Day after Day(i don't wanna be)  
I can't let it go(your favorite enemy)

Xavia, who will save us?  
Your smile's on fire  
And still my heart  
Won't let you down

Xavia, who will save us?  
Your smile's on fire  
And still my heart  
Won't let you down

One heart to break, One heart  
One heart to break, One heart  
One heart to break, My heart  
One heart to break, My heart
