Funk Box

The Sugarhill Gang

Funk box, you can't get out
Lock the door and call the cops (say what?)
Funk box, you can't get out
Lock the door and call the cops
Funk box, you can't get out
Lock the door and call the cops
Funk box, you can't get out
Lock the door and call the cops

Now's the time to groove, let it start
Rockin' in the rhythm of your heart
You don't need a key or combination
Set your feelings free and good vibration

Don't you think that we could have some fun?
I think that you're the one
If you, let yourself go, let yourself go, let yourself go
I think that you're the one
Don't you think that we could have some fun?
I think that you're the one
If you, let yourself go, let yourself go, let yourself go
It's time to have some fun

(Time for livin')
Why don't you come go with me?
(Oh baby, time for feelin')
Why don't you come go with me?
I'm sure you will see
(This is funky)

Funk box, you can't get out
Lock the door and call the cops
Funk box, you can't get out
Lock the door and call the cops
Funk box, you can't get out
Lock the door and call the cops
Funk box, you can't get out
Lock the door and call the cops

I can look at you feel the rhythm
Dancin' and the smile that you're givin'
Here we stand a chance to dance together
Now the time is right to share the treasure

Don't you think that we could have some fun?
I think that you're the one
If you, let yourself go, let yourself go, let yourself go
I think that you're the one
Don't you think that we could have some fun?
I think that you're the one
If you, let yourself go, let yourself go, let yourself go
It's time to have some fun

(Time for livin')
Why don't you come go with me?
(Time for feelin')
Why don't you come go with me?

I'm sure you will see
(This is funky)

You push my button, it's plain to see
I'm your friend, don't be mean to me
'Cause I, like it a lot, like it a lot, like it a lot
You push my button, it's plain to see
Now, I'm your friend, don't be mean to me
'Cause I, like it a lot, like it a lot, like it a lot
