

About a Girl

The Summer Set

Come closer now whisper a secret
A story about a girl
No you don't need to know what her name is
I wrote about her before

I wish I were the cigarettes,
Tucked down deep in her pockets
She'd light me up
Let me swing from her lips like a circus show

This ain't a show
No it's a song for a girl
She's making my head spin
Making me slur my words.
This is a song about a girl
This is a song about love,

Love la-la-la-love
I won't forget her name
I'll always love her the same
My love, love la-la-la-la-la-la-love
This is all for you.

Strike the match,
Burn me down till I'm nothing
Like a vision she swims through
The sheets on my mattress
She sets me on fire through the afterglow
Like a fireworks show.

This ain't a show
No it's a song for a girl
She's making my head spin
Making me slur my words.
This is a song about a girl
This is a song about love,

Love la-la-la-love
I won't forget her name
I'll always love her the same
My love, love la-la-la-la-la-la-love
This is all for you.

If you want promises baby I got 'em.
Bought a plastic ring if you want it.
Cause we're growing up girl,
But damn we're still young.
If we jump we could fall,
If we jump we could fall in love.

Love, la-la-la-love
I won't forget her name
I'll always love her the same
My love, love la-la-la-la-la-la-love
This is all for you.

Oh my love this is all for love, la-la-la-la-la-la-love.

Love this is all for you.
