

# Lights

## The Summer Set

Just keep me close tonight.  
Under the covers,  
she said let's make this right.  
Cause we're all we'll ever need,  
And we got time.

So keep the lights down low  
Oh oh, you know, you do this to me.  
So speak up if you feel the way I feel  
We never love like this

Don't hurry just slow it down now.  
We got time to make our move  
Don't hurry just slow it down now.  
Step back, oh its time we're wasting

Oh oh

You know, the cold night air  
It's not the only thing making me shake  
We could be anywhere  
From LA lights, to Arizona skies  
Cause we're all we'll ever need  
The two of us on on the silver screen

Stay close, don't forget it, don't forget it  
You've got me.

So keep the lights down low  
Oh oh, you know, you do this to me.  
So speak up if you feel the way I feel  
We never loved like this

Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh its time we're wasting

So keep the lights down low  
Cause this is all we'll ever need  
So keep the lights down low  
Oh oh...

Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh its time we're wasting

Don't hurry just slow it down now  
We got time to make our move  
Don't hurry just slow it down now  
Step back, oh its time we're wasting

(Oh oh)
