

The Way You Move

The Summer Set

It's safe to say I'm a safe bet
Oh no, get your name off my lips
You're going back to the way you move
You only love when you want to

So get up, get up
No one's make you stay
Sing it with me girl
Oh, there's nothing you can't say
and you know

You've got it down, you've got it down
We've got you figured out
You give it up when the lights go out
You give it up when you move the way you do

Oh, no

Scream out to the city
So you can make a run for it
We're gonna get back to, back to
The way that we used to, used to

So cut to the chase
We're a mess to be made
You only love when you want to

So get up, get up
No one's make you stay
Sing it with me girl
Oh, there's nothing you can't say
and you know

You've got it down, you've got it down
We've got you figured out
You give it up when the lights go out
You give it up when you move the way you do

You only love when you want to
So come on, you can make a run for it

You only love when you want to
So come on, you can make a run for it

You've got it down, you've got it down
We've got you figured out
You give it up when the lights go out
You give it up when you move the way you do
