

Passing You By

The Sunday Drivers

You're singing my material girl
while I'm just trying to break you heart
but it is so hard
it is so hard

I told you that I liked your hands
just to cause you little heart attacks
but it is so hard
it is so hard

I'm not doing fine
passing you by
to pass you by I need to see you
I need to see you

Remember when you cut your hair
I am the one to notice it first
don't forget it
don't forget it

I wonder what you think of me
when you see me in a magazine
I see you smiling
see you smiling

I'm not doing fine
passing you by
to pass you by i need to see you
I need to see you
