

End of the road

The Teenagers

End of the road
Don't look in your eyes
I know, it's over

End of the road
Don't look in your eyes
I know, it's over

Your laugh, your lips, your smile
Your legs, your hips, your eyes

End of the road
Don't look in your eyes
I know, it's over

End of the road
Don't look in your eyes
I know, it's over

When i wake up
And you're here
You say "it's not you, it's me"

End of the road
Don't look in your eyes
I know, it's over

End of the road
Don't look in your eyes
I know, it's over
