

# Freaks Of The Family

## The Texas Drag Queen Massacre

Whoa!

Well I punch my sister in the face,  
To see if she would cry,  
I threw her from the roof of our house,  
To see if she would fly,  
I hit myself with the dictionary,  
To see if I would learn,  
I set fire to the local church,  
To see if God would burn.

Well Im the kid that went into school,  
And stabbed the head girl,  
Just because Id never seen a dead girl,  
The psychiatrist told my folks,  
Well this boy ain't got no hope,  
Hes just one of the freaks of the family.

Well I heard I get my inheritance,  
When my grandma is gone,  
I scare her every chance I get,  
To help the bitch along,  
I got the job to baby-sit,  
The next door neighbours daughter,  
I ran a bath and held her down,  
But she don't breathe underwater.

Well Im the kid that went into school,  
And stabbed the head girl,  
Just because Id never seen a dead girl,  
The psychiatrist told my folks,  
This boy was not provoked,  
Hes just one of the freaks of the family.

Im the freak of the family,  
Everything I know my daddy taught to me,  
He showed me the light and how to murder right,  
In a pair high heels and green and black tights,  
Im the freak of the family,  
I got no conscience inside of me,  
When surrounded by death I feel so blessed,  
In pieces my family will rest.

Well Im the kid that went into school,  
And stabbed the head girl,  
Just because Id never seen a dead girl,  
The psychiatrist told my folks,  
Well this boys a fucking joke,  
Hes just one of the freaks of the family.
