

Love and war

The Tiger Lillies

Strike some medals, don't make a fuss
Forget about the two of us
We're off to war

Doesn't matter if you agree
You're here to kill, you see
We're off to war

Off you go and do your best
Stick some bayonets in some chests
We're off to war

And after your life's been consumed
Then peace will be resumed
We're off to war

Did you ever wonder why
Nothing changes if you die?
We're off to a war

And if you state a point of view
They will simply run you through
We're off to a war, we're off to war
We're off to war, we're off to war
