Marseille

The Tiger Lillies

In a graveyard in Marseille Where we dreamt our lives away A long long time ago Well I love you so

Well I know you won't be saved By romantic words I say But I love you so A long long time ago

Well we're by forgotten graves Where no one now does pray And we hold hands which we know time Is gonna pull away

By another's grave Christmas cards are lain Which say I love you so A long long time ago

Well we're by forgotten graves Where no one now does pray And we hold hands which we know time Is gonna wrench away

In the graveyards of Marseille In the graveyards of Marseille A long long time ago
