

The Pimp Song

The Tiger Lillies

You knock her senseless you hate her guts
You call her a bitch you call her a slut
You feed her addiction well you started it
You hit her some more she's had her hit

And she wants to be
She wants to be with you

She tried to leave you and then her sanity breaks
And says that she loves you that her heart would ache
You sell her body every day on the street
Then you hit her some more if she tries to speak

But she wants to be
She wants to be with you

Last thing she needs is a pimp like you
Who beats her black and who beats her blue
You've hit her so hard you've damaged her brain
Well there's no answer it's just her life down the drain

You're nasty you're bitter you're twisted and unkind
But she'll never leave you she's out of her mind

Yeah she wants to be
She wants to be with you

With you
