

Traffic Light

The Ting Tings

Don't you be a traffic light
With all things said
You turn to red
Don't you be a traffic light
Don't you be a roundabout
No, not another roundabout
We've come so far
Yet back to the start
Don't you be a roundabout
Oh now baby don't misread the signs
If you turn the key then things will turn out fine
Let's not have a breakdown
No, not another breakdown
You're on your own a long way from home
Let's not have a breakdown
Don't misread the signs if you just turn the key then things will turn out fine
You're pushing me, you're breaking me
Over taking me you're racing
First placing me not chasing me back home
Don't let me down
