

Mad Max Beyond Superdome

The Tony Danza Tapdance Extravaganza

city lights
collapse around
lights that
collapse around
around these words
see it's when dragged from sleep
and miles away
they chase after you
only once we see and then we do
as we place blame
it's fun and games
ripped apart to understand
then it's all labeled
as last year
when fads turned
the other direction
so still sleep underneath
these words
sleep underneath city lights
