

# Don't Get Mad Get Evil

## The Treatment

Don't get mad, get evil  
I'm inside you creeping up behind you  
Don't get mad, get evil  
I'm inside you creeping up behind you  
Ready or not, I like to shock,  
It's getting better I don't want you to stop  
I got the will, oh what a thrill  
You're moving in so I go in for the kill

You won't know if it's day or night  
You won't be looking but you're in my sights  
Firing bullets that you just can't see  
Cos you're gonna take what comes from me

Don't get mad, get evil  
I'm inside you, creeping up behind you  
Don't get mad, get evil  
Look behind you, see me creeping up on you

I made my way through history  
Abandoned where I roam  
You walk in hand with mystery  
You'll miss me when I'm gone

You can't run as I pull you in  
You're in a battle that you just won't win  
Your heart starts beating when you hear my name  
I have so many but they mean the same

Don't get mad, get evil  
I'm inside you, creeping up behind you  
Don't get mad, get evil  
Look behind you, see me creeping up on you  
Yeah creeping up on you

Look out!

I made my way through history  
Abandoned where I roam  
I walk in hand with mystery  
You'll miss me when I'm gone

You won't know if it's day or night  
You won't be looking but you're in my sights  
Firing bullets that you just can't see  
Cos you're gonna take what comes from me

Don't get mad, get evil  
I'm inside you, creeping up behind you  
Don't get mad, get evil  
Look behind you, see me creeping up on you  
See me creeping up on you  
Up on you  
See me creeping up on you  
Up on you  
See me creeping up on you

Don't get mad, get evil
