

Don't Look Down

The Treatment

Yeah we're a headstrong pack
Got the boys in the back
Loaded and ready to go
Well it's a hard knock life
But we're doing alright
Don't you go and spoil the show

Come and join the ride
There's so much more inside

We've come so far and lived so fast
I don't know if this is gonna last
The wheel is turning everyone around
Better hold on and don't you look down
Don't you look down

Well it will come to you
Like it came to me
Heading in from out the blue
You can live your life any way you like
I tell you man it's up to you

Here we go again
Fighting 'til the end

We've come so far and lived so fast
I don't know if this is gonna last
The wheel is turning everyone around
Better hold on and don't you look down
Don't you look down, yeah

I don't care where this will take us to
All I know is that you'll be there too
I wanna go where the big boys go
I wanna know what the rich man knows
I can't laugh I can't lie I won't be happy 'til the day I die

So did you think you won?
Thought that I was done?
I'm sorry what a pity for you
All the steel you lack pull it out my back
Baby I've enough for two

It ain't hard to see
I'm what I want to be

We've come so far and lived so fast
I don't know if this is gonna last
The wheel is turning everyone around
Better hold on

We've come so far and lived so fast
I don't know if this is gonna last
The wheel is turning everyone around
Better hold on
Don't you look down
Don't you look down

Don't you look down!
