

Drop Like A Stone

The Treatment

LET'S GO!

COME ON!

I wear my colours like a raging bull
The things that you show me don't impress me at all
I'm living in a bubble just to keep me alive
So come along and join me, let's jump into the ride
The fame and the money and the thrill of it all
Don't seem to matter 'cos i'm digging a hole
If you could only tell me what's happening you'll see
I've gotta find the answer 'cos it's burning in me!

You're gonna drop like a stone
You're gonna crawl like a real sick son of a bitch
You're gonna drop like a stone
Alright!

Well I was born to a mother from the city of lies
The ones that you know will only hurt you inside
She told me not to worry, everything is all right
We're living at the bottom and there's no end in sight!

You're gonna drop like a stone
You're gonna crawl like a real sick son of a bitch
You're gonna drop like a stone
Alright!
Let's go!

I get no peace of mind in my world
I get no peace of mind in my world

I wear my colours like a raging bull
The things that you show me don't impress me at all
I'm living in a bubble just to keep me alive
So come along and join me, let's jump into the ride!

You're gonna drop like a stone
You're gonna crawl like a real sick son of a bitch
You're gonna drop like a stone

I get no peace of mind in my world
I get no peace of mind in my world

Drop like a stone
Drop like a stone
