

I will be there

The Treatment

Meet me on the corner
Where the lights are low
Please do forgive me
'Cause I've got no place to go

The devil came and took me
I don't know right from wrong
But if you cannot help me
Then my life will soon be gone

I will be there
I will be there
I will be there
Waiting when you come

I will be there
I will be there
I will be there
Waiting when you come
Waiting when you come

I can't look behind me
I don't like what I see
God will be my witness
He don't care for you or me
Run from the thunder
Take me to the ground
Lay my body in the dust
Where nothing can be found

I will be there
I will be there
I will be there
Waiting when you come

I will be there
I will be there
I will be there
Waiting when you come

Meet me on the corner
Where the lights are low
Please do forgive me
'Cause I've got to place to go
Run from the thunder
Take me to the ground
Lay my body in the dust
Where nothing can be found

I will be there
I will be there
I will be there
Waiting when you come

I will be there
I will be there
I will be there

Waiting when you come
Waiting when you come
