

# World On Fire

## The Treatment

I can see the enemy  
Armed and ready and it's aimed at me  
You hit the floor  
You came for more  
I know this is worth fighting for

World on fire  
Burning red until I find her  
World on fire  
Skies burn red with my desire

Take the day  
On your way  
I can't sit around I love to play  
You hit me low  
You got to go  
Did I ever tell you this is Rock 'n' Roll

World on fire  
Burning red until I find her  
World on fire  
Skies burn red with my desire

I don't know where you have gone  
But I know you'll be back before too long  
I don't care where you have gone  
But I know you'll be back when things go wrong

Go wrong

I can see the enemy  
Armed and ready and its aimed at me  
You hit the floor  
You came for more  
I know this is worth fighting for

World on fire  
Burning red until I find her  
World on fire  
Skies burn red with my desire

World on fire  
Burning red until I find her  
World on fire  
Skies burn red with my desire

Just burn!  
Just burn!  
Just burn!  
Just burn!  
Just burn!  
Just burn!
