

Leave It Alone

The Trews

I don't wanna leave it alone
I don't wanna leave it alone

You're feeling deeper than an ocean
Blue eyed Nova Scotian
Your life is an explosion
Not much has changed except the weather
Still feels like forever
Since we've been together

Running out of reasons to stick around
Running out of ways I can let you down
Time and time again you say so

I don't wanna leave it alone
I don't wanna leave it alone
Why you never pick up the phone?
Baby won't you come back home?

This situation's going sideways
It sure ain't going my way
And no one's coming for me
Angels and devils on my shoulder
No wiser, just older
Our love leaves a hangover

Running out of reasons to stick around
Running out of ways I can let you down
Time and time again you say so

I don't wanna leave it alone
I don't wanna leave it alone
Why you never pick up the phone?
Baby won't you come back home?

I don't wanna leave it alone
I don't wanna leave it alone
Why you never pick up the phone?
Baby won't you come back home?

Somewhere way down the road
We'll get this on the go
I long, I long to be
Free from this memory
Somewhere way down the road
I still won't let you go
All you could say to me
Is "Thank you for loving me"

You're running out of reasons to stick around
I'm running out of ways I can let you down
Time and time again you say so

I don't wanna leave it alone
I don't wanna leave it alone
Why you never pick up the phone?
Baby won't you come back home?

I don't wanna leave it alone
I don't wanna leave it alone
Why you never pick up the phone?
Baby won't you come back home?

Baby won't you come back home?
Baby won't you come back home?
Baby won't you come back home?
Baby won't you come back home?
