

I Never Saw It Comin'

The Tubes

I don't have eyes in the back of my head
I can't predict what the future says
I'm not a fortune tella
I'm not a psychic fella
I'm just a lady killa
Never worried what tomorrow brings
Always ready for a stranger fling
I know it sounds so bad
I'm really not that crass
Just want that piece of

I never saw it comin'
Never saw it go
I never saw it comin'
Don't say I told you so
I never saw it comin'
Until it knocked me flat
I never saw it comin'
I don't know where I'm at

This must be what they mean by culture shock
I could've told you it was all a crock
I don't wanna wait
Couldn't get out the gate
And now it's way too late

I never saw it comin'
Never saw it go
I never saw it comin'
Don't say I told you so
I never saw it comin'
Until it knocked me flat
I never saw it comin'
I don't know where I'm at

Turn--turn around
Burn--burn it down
There--there it goes
Where--down below
