

Get Away

The Turtles

You tell me you've had it hard
Keep talkin' about how you've been scarred
Well, it's all a bunch of lies, girl
Told to me by your inverted eyes

Well, I've heard your tired song
And know that you have not suffered long
Well, you think that I'm like him, girl
And you're sure that you can never win
So leave me alone right now
Even though you know I'm down
Get away, get away
We said enough for today

And words cannot pay
I think we said all we can say
And though you've done me wrong, girl
I'll chalk it up to love, and say so long
So leave me alone right now
Even though you know I'm down
Get away, get away
We said enough for today
Get away, get away
We said enough for today

Oh, get away, get away
We said enough for today
We said enough
Oh, get away
Oh, we said enough
Please, get away
Oh, get away
We said enough
Oh, get away
We said enough
Please, get away
