

# I Know That You'll Be There

The Turtles

When things go wrong for me and  
I start feelin' down and blue  
I need somebody I can  
Come and tell my troubles to  
Someone who'll take my hand  
And say "Baby, I understand" (I know that you'll be there)  
To hold me (I know that you'll be there)  
To kiss me (I know that you'll be there)  
To smile and say "Everything's okay"

A guy needs that certain someone  
With a love he can rely on  
Through the good times and the bad times  
She'll be standin' there beside him  
A girl who's never learned to refuse  
I'm so lucky I got you (I know that you'll be there)  
To hold me (I know that you'll be there)  
To kiss me (I know that you'll be there)  
To smile and say "Everything's okay"

Someone who'll take my hand  
And say "Baby, I understand" (I know that you'll be there)  
To hold me (I know that you'll be there)  
To kiss me (I know that you'll be there)  
To love me (I know that you'll be there)  
And want me (I know that you'll be there)  
To need me (I know that you'll be there)
