

I Need Someone

The Turtles

I need someone to love
That won't be strayed away
A love to last at night
And not turn in the day

Thinkin' cannot help me
You're gone in the past
And though I tried to help you
Our love, it could not last

I need someone to love me
Who won't fade in time
So I live and love in vain
So I live and love in vain

Love was too short
To find help in your eyes
And love could not come
When you learn to despise

I've seen many loves
That promised to last
But ended only as
A day in the past

I need someone to love me
Who won't fade in time
So I live and love in vain
So I live and love in vain
So I live and love
In vain
