## **Some Things Last a Long Time**

## The Twilight Sad

Your picture is still on my wall, on my wall The colors are bright, bright as ever Red is strong and blue is pure Some things last a long time Some things last a long time

Your picture is still on my wall, on my wall I think about you often, often I won't forget all the things we did Some things last a long time Some things last a long time

It's funny, but it's true
And it's true, but it's not funny
Time comes and goes
All of the while, I still think about you
Some things last a long time

Your picture is still on my wall, on my wall
The colors are bright, bright as ever
The things we did i can't forget
Some things last a lifetime
Some things last a lifetime
Some things last a lifetime
