Runaway

The Twins

when I see the soldiers come
burning down the houses
raping girls and children
it's the time to run away

when I see the fire grow
running through your fields
destroying crop and animals
it's the time to run away

when I see the water run
floating nearly everything
like a muddy avalanche
it's the time to run away

when I hear the earthquake roar
see the cities going down
human beings live in fear
it's the time to run away

leave your body
leave the earth
see the light
of the universe

leave your body
free your soul
feel the peace
of the universe
