

The Golden Ring

The Twins

Night-time - the sky was black
Dark streets - and no way back
Heard a sound - and I stopped dead
In my tracks.

Looked around - she turned her head
Had to go - where she led
We walked - She took my hand
And she said.

Take this golden ring
Never loose this golden ring
Take this golden ring
'til I come back again.

She said - the ring is strong
I blinked - and she was gone
She said - she would return
it won't be long.

Take this golden ring
Never loose this golden ring
Take this golden ring
'til I come back again.
