## **She Can Only Say No**

## The Undertones

I got to find a way to face the day Got no time to hesitate No more hanging around the door Cos she can only say no

No boy has gone ahead and asked her straight I don't have the time to wait Don't know what I'm supposed to say Though she can only say no

She can only say no - no - no She can only say no - no - no She can only say no - no - no

No boy has gone ahead and asked her straight I don't have the time to wait Don't know what I'm supposed to say Though she can only say no

Does she like you or something
