

## Closure

## The Unjust

Lights off, the Fire is gone  
In the absence of rain  
And to breath on this virus comes  
Images of the way

Let Me Out!

Sense of silence comes  
At the end of the day  
To release all the poison stones  
And leave my world clean

To see like and to be like you  
Understand this moment  
And tonight the lights crash  
To feel like you we're not like you  
Understand this moment  
Re-unite the lights
