

How long was I sleeping?  
Did you wake me?  
Didn't feel like all that long  
Do I see the morning?  
No it can't be, happened to me  
I've been stuck in the quicksand  
More the pavement  
Colours black and white too long  
I could black out completely  
But I made me, make my way back slowly  
It's my time to shine  
Do it my way cause it's my time, baby  
It's my time to burn  
Start a fire, be the one and only  
I said it, I meant it, I never will forget it  
Change never happens by itself  
It's my time to burn, my time to shine  
Time to make it for myself  
How long was I buried?  
Couldn't find me, laid to rest, my heart beats on  
Kept track of the symptoms  
Could've killed me  
But you will see  
I'm not broken, I could be  
Yeah, you would be  
But my heart is much too strong  
God, I thought it was easy  
But I made me  
I made me slowly  
It's my time to shine  
Do it my way cause it's my time, baby  
It's my time to burn  
Start a fire, be the one and only  
I said it, I meant it, I never will forget it  
Change never happens by itself  
It's my time to burn, my time to shine  
Time to make it for myself  
Don't be sad, I know you will  
It's just the way it has to be  
I can never stay the same  
It's always high, always low, and almost never in between  
There is no one left to blame  
I can't stay  
I have to change  
It's my time to shine  
Do it my way cause it's my time, baby  
It's my time to burn  
Start a fire, be the one and only  
I said it, I meant it, I never will forget it  
Change never happens by itself  
It's my time to burn, my time to shine  
Time to make it for myself  
Make a change, shine on, shine on  
Do it your way, shine on, shine on  
Make a change, shine on, shine on  
Do it your way, shine on
