

# Wake the Dead

## The Used

This is not natural  
A bunch of holes where the dead used to be underground  
Forget supernatural 'cause all those resting in peace are out walking the streets  
Yeah with no heartbeat  
Across the sky they can hear you on the other side  
A scream that's loud enough to wake the dead  
All alone you bought tickets for the nightmare as you wake the dead.  
Wake the dead  
This is not possible  
An empty hole in your chest where your heart used to beat  
Does this mean what I think it means?  
Just how could both you and me be about as dead as we could be  
Yeah with no heartbeat

Across the sky they can hear you on the other side  
A scream that's loud enough to wake the dead  
All alone you bought tickets for the nightmare as you wake the dead  
Wake the dead  
Take a walk with me, (Walk with the dead)  
It's weird that we have to die sometime  
darling tonight could be  
Let your voice shred miles(of diamond skies)  
Just walk as they wake in the darkness  
Well darling tonight could be a beautiful night to die  
A beautiful night to die  
Wake the dead fuck it your dead  
Wake the dead fuck your dead  
Wake the dead  
Wake the dead  
Across the sky they can ha-ha-hear you  
A scream that's loud enough to wake the dead  
All alone you bought tickets for the nightmare as you wake the dead.  
Across the sky they can hear you on the other side  
A scream that's loud enough to wake the dead  
All alone you bought tickets for the nightmare as you wake the dead.  
Wake the dead(5x)
