

# Better

The Vamps

We fell in  
Now we're falling apart  
But do you even notice?  
You're sleeping  
While I'm falling apart  
Going through the motions  
So tell me

Did things get better  
Or did we get used to it?  
Tell me, how did we get here?  
So much space in this bed  
Did we learn to make a little  
Feel like all that we could give?  
Yeah, we can do better  
Yeah, we can do better than this

I won't settle for less than best  
I say it so I don't forget  
I won't settle for less than best  
And we can do better than this

I bite my tongue  
Then I start to scream it  
But does it make a difference at all?  
'Cause we should be lovers if there's a spark  
We should recover all that we lost  
'Cause it's too good to let it go

Did things get better

Or did we get used to it?  
Tell me, how did we get here?  
So much space in this bed  
Did we learn to make a little  
Feel like all that we could give?  
Yeah, we can do better  
Yeah, we can do better than this

I won't settle for less than best  
I say it so I don't forget  
I won't settle for less than best  
And we can do better than this

Did things get better  
Or did we get used to it?  
Tell me, how did we get here?  
So much space in this bed  
Did we learn to make a little  
Feel like all that we could give?  
Yeah, we can do better  
Yeah, we can do better than this

I won't settle for less than best  
I say it so I don't forget  
I won't settle for less than best  
And we can do better than this
