

Pictures of Us

The Vamps

Is it your fault or my fault
Tell me who's taking the blame
Is it your arms or my arms
How we let it slip away
Are you thinking what I'm thinking
Do you even remember me
Are you seeing what I'm seeing
Or am I just a memory

All those summer nights
Over in a flash
But forever last, baby
Every time that I
Think I'm moving on
I just stumble on

Pictures of us on the screen
They don't tell the story right
Only capturing the nights
We were in love, you and me
They just make me want you back
That's why I shouldn't be looking at

Is it your eyes or my eyes
That's making the tears fall
Is it your loss or my loss
That's got me all emotional
Are you hurting like I'm hurting
Is your heart back in one piece
Do you miss it like I miss it
Or am I just a memory

All those summer nights
Over in a flash
But forever last, baby
Every time that I
Think I'm moving on
I just stumble on

I just don't know why
If you don't want me back
Why you're still looking at...
