First I think of my health, then I know some food I have to buy I'm taking the time, taking the time to understand why you and me were never meant to eat a bird that fly's How does it make you feel? To take a life for just one meal The deal, two drumsticks and a breast just leave you so depressed that I must stress Do not eat the chicken! Now back to my health I really don't need the vegetable All covered in filth, it's almost uneatable Meat makes you strong so strong that you can say Who's the man? Who's the man now? 50 serving from just one cow How does it make you feel? To take a life for just one meal The deal, two drumsticks and a breast just leave you so depressed that I must stress Do not eat the chicken! I can taste the feathers in my mouth Such a waste of time 1 life 1 meal should be a crime Eat a bigger bird 1 turkey - 10 people can be served I don't care how they're raised, hormone injected do not phase me You can stuff your free range chickens I wont eat a bird that fly's How does it make you feel? To take a life for just one meal The deal, two drumsticks and a breast just leave you so depressed that I must stress Do not eat the chicken!
