

Afterlife

The Veer Union

It's worse than any pain I've known
It's worse than any broken bones
Inside I'm sinking like a stone
Ripped from me my heart that's home

I remember the way you were
I'll remember the way you are forever
I surrender my faded heart
Until there's a world we walk together

You're never ever forgotten
Never ever never no

You'll never be forgotten, or fade into the fallen
Inside of everyone you'll still remain
For the moment I am broken, take comfort in the knowing
Cause I know that I'll see you again

I'll see you in the afterlife
I'll see you in the afterlife

I felt the dark you faced
Clinging to the life you taste
Lost inside this empty place
Dreaming of our last embrace

I remember the way you were
I'll remember the way you are forever
I surrender my faded heart
Until there's a world we walk together

You're never ever forgotten
You're never ever never no

You'll never be forgotten, or fade into the fallen
Inside of everyone you'll still remain
For the moment I am broken, take comfort in the knowing
Cause I know that I'll see you again

I'll see you in the afterlife
I'll see you in the afterlife

I'll see you in the afterlife

I will see you in the afterlife
I will see you in the afterlife

The lowest of levels I've known
I'm so hollow
The devil has dug me a hole
In my soul
I'm so hollow

You'll never be forgotten, or fade into the fallen
Inside of everyone you'll still remain
For the moment I am broken, take comfort in the knowing
Cause I know that I'll see you again

I'll see you in the afterlife
I'll see you in the afterlife

In the afterlife
