

# My Shadow

The Veer Union

Deep inside the dark's where I have been  
I can't stay here, I can't stay here  
Step into the sun to see again  
Because I can't stay here, I can't stay here

Let the light pour down upon my skin  
To seal these wounds and then  
Maybe this time we can stop the bleeding

Say hello to my shadow, say hello  
I'm letting go of the shallow world I know  
I don't care what they say  
Cause I'm not here to stay  
Say hello to my shadow as I go

Before the break of dawn I stand aware  
That I can't stay here, I won't stay here

Let the light pour down upon my skin  
To seal these wounds and then  
Maybe this time we can stop the bleeding

Say hello to my shadow, say hello  
I'm letting go of the shallow world I know  
I don't care what they say  
Cause I'm not here to stay  
Say hello to my shadow as I go

Say hello to my shadow  
I'm letting go of the shallow world I know  
I don't care what they say  
Cause I'm not here to stay  
Say hello to my shadow as I go

Let the light pour down upon my skin  
To seal these wounds again  
Say hello to my shadow

Let the light pour down upon my skin  
To seal these wounds again  
Say hello to my shadow
