

See Right Through You

The Veer Union

Try to see
Through the eyes of another mans wisdom
I belive
Been around in the riddels you've spoken
Try to see
Passes out on a loveless morning
I belive
Been a moment for a sassif reason
But now the curtens, come down
Slowly, you turn
into another shade of gray!
now, you will burn
I'm starting to see you with fate!
I can see right through you
and something is like sallor fade
I can see right through you
I'm starting to se you with fate
I can see right through you
underneath
The crooked smile is now appearing
Life with greed
The inner sence is dissapering
And now the curtens, come down
Slowly, you turn
into another shade of gray!
now, you will burn
I'm starting to see you with fate!
I can see right through you
and something is like sallor fade
I can see right through you
I'm starting to se you with fate
Starting to see you with fate!
Slowly, you turn
into another shade of gray!
now, you will burn
I'm starting to see you with fate!
I can see right through you
and something is like sallor fade
I can see right through you
I'm starting to se you with fate!
