

Slaves to the System

The Veer Union

We won't, we won't be
We won't be slaves to the system
We won't, we won't be
We won't be slaves!

We're turning the tides
Uncovered the crimes
We've given the world but we're the sacrifice
The keys to the kingdom locked from our freedom
But we won't be slaves to the system

I'm feelin like there's just no way of stoppin this
They're say its the end and now I'm staring at the back of the apocalypse
I'm watchin this
Our families stressin and shoppin less
While politicians and bankers collectin all the stock tips
And not just this
But now our industries are populace
And fallen victim to the plague and elitists seem like novices
It obvious and all of the rich remain the dominant
And poor fools with nothing to lose dream of opulence

Betrayed us all now they leave us in chains
But we will never be slaves!

We're turning the tides
Uncovered the crimes
We've given the world but we're the sacrifice
The keys to the kingdom locked from our freedom
But we won't be slaves
Foot in the fire
Burned by desire
Traded our world for yet another liar
We'll break the affliction
We've been the victims
But we won't be slaves to the system

We won't, we won't be
We won't be slaves to the system
We won't, we won't be
We won't be slaves to the system
