

# NIGHTMARE TOWN

The Vibrators

Take a look at your town tonight  
I don't see any nightlife  
It's been plenty a years  
Since anyone's had a good time around here  
Sure, there's people all around  
But at night this becomes a ghost town  
You gotta get out before it's too late  
You gotta get out and it can't wait

Darkness falls on your faceless town  
Its painted smile and its hidden frown  
Plenty of buildings but nothing to do  
It's just like radiation, it's killing you

Take a really good look around  
See how bad it is in this boring town  
Don't it all just get to you?  
Don'tcha wish you were like me, just passing through  
I can hear them nailing your coffin lid down  
Lose the will to live in this nightmare town  
Fragile people out on bloodstained streets  
Nervous sentinels round curtains do peep

Darkness falls on your faceless town  
Its painted smile and its hidden frown  
Plenty of buildings but nothing to do  
It's just like radiation, it's killing you

Take a look at your town tonight  
I don't see any nightlife  
It's been plenty a years  
Since anyone's had a good time around here  
Don't it all just get to you?  
Don'tcha wish you were like me, just passing through  
'Cos every day's burning the same  
Neural pathway into your brain

Darkness falls on your faceless town  
Its painted smile and its hidden frown  
Plenty of buildings but nothing to do  
It's just like radiation, it's killing you

Darkness falls on your faceless town (2x)

Darkness falls on your faceless town  
Its painted smile and its hidden frown  
Plenty of buildings but nothing to do  
It's just like radiation, it's killing you  
Darkness falls on your faceless town (2x)
