

# Goodbye

The Vines

Oh livin now without you  
Is cold and grey  
Oh how I wanna touch you  
And see your face

But now it's over  
For you and I  
Into the end  
Goodbye

Oh wakin in the mornin  
I look outside  
Memories comin back to haunt me  
They make me cry

But now it's over  
For you and I  
Into the end  
Goodbye  
Into the end  
Goodbye
