

## Until We Win

### The Virus

We are the punks and you are the bastards  
Try and slow us down we'll just go faster  
Keep up the pace and never give in  
Cause we'll keep on fighting  
Until we win

We are the future we are the youth  
We get condemned for telling the truth

With one common goal we stand and we strive  
To keep our ideals and to keep punk alive  
Keep your own ideas and never give in  
Cause we'll keep on fighting  
Until we win

We are the future we are the youth  
We get condemned for telling the truth
