

Souls Encounter

The Wake

Mind distortion
Sorcered potion
Souls encounter

Light embrace me
Dark redeems me
Laws deceit

When has the darkness begun
Why does my life exists? Why the brains do guide me?
My soul deployed - The scorn is earned...

Heading towards
Walking backwards
It's surreal - you think?

Last in foodchain
Passed the deadline
I'm leaving behind

Live from leftouts
Waiting for blackout
Voices surround

Mind distortion
Sorcered potion
Souls encounter

I let the foolish people guide me
I'm not the strongest man
When you can't see me
when you can't feel me
I'm all around in here

Don't let it change your life today
Don't let it plant the fear of god in me
