

I Don't Live Here Anymore

The War on Drugs

I was lying in my bed
A creature void of form
Been so afraid of everything
I need a chance to be reborn
I never wanted anything
That someone had to give
I don't live here anymore
I went a long way with you

When I think about the old days, babe
You're always on my mind
I know it ain't like I remember
I guess my memories run wild
Like when we went to see Bob Dylan
We danced to Desolation Row
But I don't live here anymore
But I got no place to go

Beating like a heart
I'm gonna walk through every doorway, I can't stop
I need some time, I need control, I need true love
I wanna find out everything I need to know
I'm gonna say everything that there is to say
Although you've taken everything I need away
I'm gonna make it to the place I need to go
We're all just walking through this darkness on our own

Time surrounds me like an ocean
My memories like waves
Is life just dying in slow motion
Or getting stronger every day?
I never took our love for granted
You never left me wanting more
But you'd never recognise me, babe
I don't live here anymore

Beating like a heart
I'm gonna walk through every doorway, I can't stop
I need some time, I need control, I need true love
I wanna find out every thing I need to know
I'm gonna say everything that I need to say
Although you've taken everything I need away
I'm gonna take it to the place I need to go
We're all just walking through this darkness on our own

Beating like a heart
I'm gonna walk through every doorway, I can't stop
I need some time, I need control, I need true love
I wanna find out every thing I need to know
I'm gonna say everything that I need to say
Although you've taken everything I need away
I'm gonna take it to the place I need to go
We're all just walking through this darkness on our own

We're all just walking through this darkness on our own
We're all just walking through this darkness on our own
We're all just walking through this darkness on our own

We're all just walking through this darkness on our own
