

# Your Love Is Calling My Name

## The War on Drugs

There's a ring on mine looking for a fire  
I'm gonna read your minds  
It's gonna be alright yeah

I ride the freeway down by the harbor  
I catch a strong wind through my mind  
I drew a light on the wall for the tallest tier  
If there's a line, cross it off for the ragged rails  
If there's a weight on you, then it's on me too  
We're like a slave, babe, for our love, babe

I ride the freeway down by the harbor  
I catch a strong wind through my mind  
Just keep it running, I'll take it over

We're just a feeling down by the harbor, babe  
I'll catch a strong wind through my mind  
Just keep it rolling, I'll take it over  
I'll push it over this time

I ride the freeway down by the harbor, babe  
And there's a strong wind through my mind  
Just keep it running, I'll push it over  
Let's take it over this time

I got the feeling down at the harbor  
Just like a strong wind through our days  
Just keep it rolling, I'll take it over  
Let's push it over this way
