

Lying in bedrooms is easy
It's not like it's five years ago
Lately you're over my body
'Cause that's just the place that I want you to be
Look at the pictures you've gotten
They're like signals from oncoming cars
We're covered and caked from the last time
I know it sounds weird, we collect it in jars
'Cause that's just the place that I wannabe
Oh can't you see it's the life I don't need
Please don't make this thing up for me
(The way that I wannabe)
Oh can't you see it's the life I don't need
Please don't make this thing up for me
Driving in style with a smile on
I wish the light could turn red on me now
The day's been so damn hard already
So buckle me in on the highway of sin
'Cause that's just the way that I wannabe
Oh can't you see it's the life I don't need
Please don't make this thing up for me
(The way that I wannabe)
Oh can't you see it's the life I don't need
Please don't make this thing up for me
Cause that's just the way
Cause that's just the way
All uncovered
That's just the way
Driving in style with a smile on
I wish the light could turn red on me now
The day's been so damn hard already
So buckle me in on the highway of sin
'Cause that's just the way that I wannabe (wannabe)
Cause that's just the way
That's just the way
All uncovered
That's just the way
