

Holiday (slow It Down)

The Watchmen

So you're sending me on a holiday
Where did the time go
I saw it pass away
We wear nothing but sad faces
Where did the time go
I saw it pass away
Pain is simple
Confidence
It helps me
To slow down
Slow it down
We go nowhere but old places
Where did the time go
That way
Slow it down
We were old familiar strangers
How was the time though
Not bad
Pain is simple confidence helps me to
Slow down
