

Sleep

The Watchmen

All the things I've heard and seen in this today
Yeah, I keep them in my memory sort of filed away
I know they'll be around to visit one more time
To run beside me softly in the chambers of my mind
Oh, I know that feeling
The one that means I'm dreaming
Memories kind of wheeling
But like I thought, it happens all the time, all the time
I had a dream of God's machine the other night
And there were crowds of angels trying to help me fix my flight
To me it's just another boring very sleepy time
But they just come right in and try to stir my mind
Oh, I like that feeling
I like you when you're screaming
Now I start you bleeding
Doesn't matter friends, it happens all the
Time to wake up, time to shake out, shake out all the madness g
oing on
Time to wake up, time to shake out, shake out all the madness g
oing on
I remember when the falled man would crush my fingers
The lady wouldn't help me 'til I screamed
And I was just an ordinary lonely child
So tell me what this crazy nonsense really means
My fingers hurt, I'm screaming
I don't wanna known that feeling
Now I start my bleeding
Doesn't matter kids, it happens all the
Time to wake up, time to shake out, shake out all the madness g
oing on
Time to wake up, time to shake out, shake out all the madness g
oing on
I'm, oh I'm, I'm scatterbrained today
But I know it's in my memory
Time to wake up, time to shake out, shake out all the madness g
oing on
Time to wake up, time to shake out, shake out all the madness g
oing on
Time to wake up, time to shake out, shake out all the madness g
oing on
(There's a man inside my head, he maybe might just want you dea
d)
(There's a man inside my head)
Time to wake up, time to shake out, shake out all the madness g
oing on
(There's a man inside my head, he maybe might just want you dea
d)
(There's a man inside my head)
