

Preparing to Fly

The Waterboys

I'm preparing to fly
Under my own steam
Well I'm preparing to fly
Into a dream, yeah

I'm in love all over again, I'm head over heels
I can't even begin to tell you how it feels
She lives on a rock surrounded by light
She's young and she's wild and she's treating me right

I'm preparing to fly
Under my own steam
I'm preparing to fly
Into a dream

I shed some light, changed my address
I haven't felt so great since I first went West
I've got brilliant intentions, unthinkable plans
I've got sparks and electric shocks just exploding in my hands

I'm preparing to fly
Under my own steam
I'm preparing to fly
Into a dream

I'm back in the saddle, I'm out in the clear
I got no regrets, I've got nothing to fear
I've battled my demons, came out on top
I'm gonna love you as hard as I can, never gonna stop

I'm preparing to fly
Under my own steam
I'm preparing to fly
Into a dream, hey hey
